FANCY SLATES.—These Slates are cut by an apparatus patented some few months since by Mr. Mathew, one of the partners in the Rhiwbrydair Slate Company, whose slates are known in the market as second to none for quality and truthfulness of make. They are cut into various shapes, so that when laid they show themselves as Gothic, diamond, hexagon, rounded, or any other shape, to suit particular buildings or individual taste; whilst, independent of their ornamental appearance, they cover the same space, and form, if possible, a better roof than the common ones, inasmuch as the water is brought to a focus at the point or lower extremity of each slate, and consequently descends with greater rapidity from the roof. These slates are shipped at Portmadoc under the firm of Messrs. MATHEW and SON, and are computed on the freight at one-eighth less than the common slates, whilst, from the facility of making them, they are offered at less cost.

And by the most eminent members of the Royal Agricultural Societies of England, Scotland, and Ireland; at whose great national shows it has been exhibited, and OBTAINED THE PRIZE, for being the best and cheapest article for roofing; also used for under slates at the Royal Agricultural Society's House, in Hanover-square. Its advantages are lightness, warmth, durability, and economy. It is impervious to rain, snow, and frost, and a non-conductor of heat and sound. The Felt can be cut to any length, by 32 inches wide. The price is only ONE PENNY PER SQUARE FOOT. Samples, with full directions as to its uses and the manner of applying it, with TESTIMONIALS, some of them of seven years' experience, from Architects, Builders, Noblemen, and Gentlemen, who have extensively used it, sent free to any part of the town or country. A Dry-hair Felt, for covering boilers, &c., is also manufactured, by which a saving of about 33 per cent. in fuel is effected. The TRADE are respectfully solicited to send their orders DIRECT to the FACTORY, as the surest means of being supplied with the genuine article, and in lengths best suited to their roofs. They are likewise CAUTIONED AGAINST MISREPRESENTATION, as the only works in Great Britain where the above roofing is made are F. McNEILL and Co.'s Manufactories, LAMB'S-BUILDINGS, BUNHILL-ROW. Roofs covered with the Felt to be seen at the Factory, also the new Vice-Chancellor's Courts, the passages and offices leading to Westminster Hall, and other buildings at the New Houses of Parliament.—A Liberal Discount allowed to the Trade.
